

UGANDAN LAMBS ASSOCIATION

MONTHLY REPORT

3rd.June.2025

Currently, Ugandan Lambs Association is supporting **53** children; this is done through mentoring, sponsorship and donations. Children are nurtured through them attending Child Evangelistic Fellowships, ensuring that they have basic needs, for example, food, shelter, clothing, medical care and quality education. This is done in a safe and nurturing environment to facilitate, monitor their education and promote their physical and spiritual well-being. The main purpose of supporting the children is to break the cycle of poverty and dependence in order to allow each child to fulfill his or her God given potential. The supported children together with their guardians are grateful for the support rendered so far.

Activities done during the month of May 2025

1. Children reporting back to school
2. Visiting children at school
3. School practice
4. Sick children

1. Children reporting back to school

All Lambs were able to report back to school during the month. They were advised to add on the effort towards studying so that they can be able to perform well. They were inspired to be engaged in study discussions with their fellow students and to also keep on inquiring from the teachers to clarify more where necessary so that they can be able to pass well the exams. They were advised to avoid bad peer pressure since they can lead them to either perform poorly in class or be expelled from school.

2. Visiting children at school

During the month, children at YMCA Buwambo campus were visited. Consultation from the tutors and heads of departments was done for all the students. Consultation was done in order to know how the Lambs are doing with regard to the courses they are offering. This also helped to clarify daily attendance of the students. This helps the students to be serious with their studies and also excel at the end of it all. Children visited at YMCA were Kintu, offering a course in Electric installation, Najjemba, offering a course in catering and hotel management and Nabbosa, offering a course in fashion and design.

Kintu

Najjemba

Harriet

Below are some of the items done by Harriet:

Neck scuffs

A jacket

A party dress

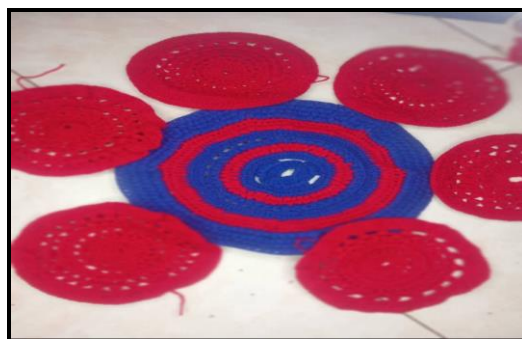

Table mats

3. School practice

Children offering a nursing course were also visited to know how they are faring with regard to studies. They are at the moment doing school practice at the various schools they are into; Kirya is at St. Francis school of health sciences offering a course in Nursing and Betty is at Mildmay School of Nursing and Midwifery offering a Nursing course too. School practice helps students to gain more experience with regard to treating of people. It was not possible to get photos of patients being worked on because it is not allowed to take photos of patients in hospital.

Kirya poses for a photo during school practice.

Betty poses for a photo during school practice.

4. Caring for sick children

One of the core values of Ugandan Lambs USA is caring for sick children as a way of meeting their physical needs. A paramount objective of all Ugandan Lambs Association USA's programs is addressing health vulnerabilities by improving access to quality health services, disease prevention and psychosocial counseling in a bid to enable the lambs have good health, which is a precondition for living a life of dignity. During the month no lamb fell sick they are all fine.
