

## UGANDAN LAMBS ASSOCIATION

### MONTHLY REPORT

1<sup>st</sup>.July.2025

*Catherine poses for a photo during her internship at Lake Bunyonyi in Uganda*

#### **Activities done during the month of June 2025:**

1. Visiting children at school
2. Senior woman role
3. Internship
4. Sick Children

## **1. Visiting children at school**

Children at St. Kizito High School were visited during the month. The Headmaster was consulted on how children were faring at school. This was done with regard to behavior and academics as well. The Headmaster reported that the children were gradually improving in academics and that they were well behaved at school. This gives an insight that these children will be able to excel in their studies. Children were also urged to continue behaving well and to also put in more effort as they study since this will help them excel in their studies.

## **2. Senior Woman role**

Interaction was made with the senior woman at St. Kizito High School. A senior woman is an elderly teacher that is chosen to offer counselling to specifically the girl children. They are helped in various ways; that is to say, how to cope with the day-to-day life

while at school and in the community. They advise girls to be very clean and also to avoid bad peer pressure. This is what the senior woman was able to share during the interaction with her. She was thanked for the great work done for the girls while at school.

### **3. Internship**

During the month, one of the Lambs was able to do her internship. Catherine is a Lamb offering a Tourism course at St. Lawrence University. She is in her final year at the University and was able to do internship at Queen Elizabeth National Park, which is one of the best sites for tourism in Uganda. She was also able to carry out her internship with the help of a Tourism guide at lake Bunyonyi, another awesome tourism site in Uganda. Internship helps children gain experience in what they are yet to face in the working sector.

#### **4. *Caring for sick children***

One of the core values of Ugandan Lambs USA is caring for sick children as a way of meeting their physical needs. A paramount objective of all Ugandan Lambs Association USA's programs is addressing health vulnerabilities by improving access to quality health services, disease prevention and psychosocial counseling in a bid to enable the Lambs have good health, which is a precondition for living a life of dignity. During the month no Lamb fell sick; they are all fine.
